Erroneous report that primary target covered on C-285-C caused confusion here. If it still possible to handle msw it most important that Ping HSIANG coverage be obtained.

(2) Wx for Southern Taiwan Straits msw appears favorable for 19 May Zulu but return ferry etc makes plan difficult for you. Wx forecast to hold for 20 May Zulu and New Bedford directed us to plan for ~~20~~ this date.

(3) Can you estimate departure of C-130 from [redacted] on return leg. Is crew augmented?

(4) Understand - We will go ahead with msw. Tell [redacted] we are working on T-39.
